## 5. Connecting your Multi-touch-Screen and laptop

- Now that you are familiar with the cables, connect the B end of the USB A to B to the wall plate socket USB. Then connect the A end to your laptop.
- If you are using HDMI, connect the cable to the wall plate HDMI socket and to your laptop.
- If you are using VGA, connect the cable to the wall plate Computer socket and to your laptop. Then connect the 3.5mm audio cable to the Audio socket and to your laptop.

## 6. Ready to use

You have now connected your multi-touch screen and laptop. Turn on your laptop and multi-touch screen. The multi-touch screen is now ready to use.

## 7. OSD

- 1 Shortcuts – Quick access to source/inputs and apps
- 2 Date & Time
- 3 Preview Window Source/Input preview screen
- 4 Setting – System Settings
- 5 Browser – Internet Browser
- 6 All App – Go to Android Apps
