

Overview

Experience the stunning leading-edge visual performance with the HDi workspace series of multi-touch table with inbuilt HDi OS Android. The HDi workspace incorporates capacitive touch technology with a unique 'micro air gap' feature for a seamless experience.

The screen offers up to 32 points of touch. Complete with HDi OS Android, the system is completely plug and play, with no drivers necessary for interaction. HDi Workspace 65" works with Windows and OSX operating systems.

The screen is 4K resolution, LED high brightness backlight and wide screen format provides an ideal medium for interaction and collaboration. There are ample I/O ports that would suit any audio-visual environment, making the HDi workspace a must-have companion for education, government and the corporate sector.
