HDi trolleys are proudly
manufactured in Australia

The HDi Mobi series is proudly engineered and manufactured here in Australia to enable our customers to make the most out of their multi touch technology.

Designed and modified over the past 15 years, we believe the HDi range is the premium trolley on the market for mobile touch solutions.

The high quality steel construction and professional finish completes the most robust and versatile trolley series on the market in Australia.

The Mobi series offers the widest range of movement and flexibility to ensure every user gets the optimal use of their space.

Available to fit non-HDi screen technology.
